CURE	20-30 days keep textile linens off while curing	20-30 days	20-30 days	20-30 days	20-30 days	20-30 days	20-30 days	20-30 days
ABSORBABILITY	Most absorbable finish. Penetrates deeply into the surface to protect from the inside out.	Least absorbable finish. Dries hard on the surface, making it ideal for high-use pieces like kitchen tables.	Medium absorbability. Goes on like a lotion and gently absorbs into the surface.	Medium absorbability. Goes on like a lotion and gently absorbs into the surface.	Medium absorbability. Goes on like a lotion and gently absorbs into the surface.	Medium absorbability.
